INTRODUCTION

This guide has been crafted with the intention of disseminating information about Sustainable Development Goals (SDGs) and providing a comprehensive list of primary public websites to stay abreast of their initiatives and endeavors across diverse global regions.

The initial segment of the guide features websites pertaining to SDGs within the realm of higher education, accompanied by concise descriptions and hyperlinks. Following this, the subsequent section of the guide enumerates general websites offering insights into the global progress of SDGs. The guide concludes with a bibliography that encompasses all the cited websites.

SDG UPDATES

in higher education

The Association for the Advancement of Sustainability in Higher Education (AASHE)

Link:

<https://www.aashe.org/>

Description

AASHE stands as the foremost organization dedicated to promoting sustainability in higher education. It encompasses a diverse community of faculty, administrators, staff, and students who actively contribute to fostering positive change and pioneering innovations in sustainability.

The Alliance for Sustainability Leadership in Education (EAUC)

Link:

<https://www.eauc.org.uk/>

Description

EAUC advocates of aligning UK and Irish education as formidable global leaders in advancing the SDGs. Recognizing the transformative power of education, it plays a pivotal role in shaping not only individual lives but also entire communities, serving as the linchpin for global sustainability. It also extends to ensuring universal access to sustainability education for every student, while emphasizing the implementation of operational sustainability best practices within the educational framework. Embracing flexibility and adaptability, they strive to uncover innovative solutions for a resilient future, and strongly endorse the value of international collaboration to collectively address the challenges outlined by the SDGs.

International Sustainable Campus Network (ISCN)

Link:

<https://international-sustainable-campus-network.org/>

Description

The core objective of the ISCN is to serve as a global platform facilitating higher education institutions in the exchange of information, ideas, and exemplary practices dedicated to advancing the Sustainable Development Goals (SDGs). Its mission revolves around fostering collaboration to achieve sustainable campus operations and seamlessly integrating sustainability into the realms of research and teaching. Through this, it strives to promote a collective effort among higher education institutions to contribute significantly to the global pursuit of sustainability objectives outlined by the SDGs.

Global RCE Network

Global RCE Network

Education for Sustainable Development

Link:

<https://rcenetwork.org/portal/rce-vision-and-mission>

Description

The Global RCE Network unites diverse members across sectors and disciplines, fostering unique collaborations to address sustainability challenges in alignment with the Sustainable Development Goals (SDGs). Serving as influential policy advocates, they assess and collectively scale policies, offering guidance on future actions. Through dialogue, education, and learning, RCEs contribute to local leaders' preparation, empowering them to make informed and sustainable choices. These efforts promote innovation, translating knowledge into actionable steps that empower individuals and communities globally. The success of local RCEs is leveraged on a global scale through the network, facilitating the sharing and adaptation of best practices, knowledge, and technologies to promote sustainable development worldwide.

Nordic Sustainable Campus Network

NSCN

Nordic
Sustainable
Campus
Network

Link:

<https://nordicsustainablecampusnetwork.wordpress.com/>

Description

The Nordic Sustainable Campus Network (NSCN) targets sustainability and environmental professionals in Nordic higher education institutions, encompassing both administration and teaching roles. Established in 2012 with financial support from The Nordic Council of Ministers, NSCN aims to enhance existing sustainability initiatives within Nordic higher education. Its objectives include advancing sustainability in these institutions, engaging top management and all university stakeholders, facilitating knowledge sharing through communication platforms, bolstering Nordic visibility in global networks like the ISCN, and fostering the exchange of experiences and best practices. Emphasizing alignment with the Sustainable Development Goals (SDGs), NSCN plays a crucial role in promoting sustainable practices across Nordic universities.

The U.S. Partnership for Education for Sustainable Development

Link:

<https://www.iau-aiu.net/HESD?lang=en>

Description

The International Association of Universities (IAU) is dedicated to strengthening the global higher education community's impact on societies worldwide. As a representative body for a diverse range of higher education institutions and associations, IAU is committed to advancing key priorities aligned with the Sustainable Development Goals (SDGs). The IAU Strategy 2030, adopted at the 16th IAU General Conference in 2022, underscores four strategic priorities: Globally-engaged and Value-based Leadership, Internationalization for Society and the Global Common Good, Higher Education and Research for Sustainable Development, and Digital Transformation of Higher Education. Through these objectives, IAU seeks to enhance the role of higher education in promoting positive societal change on a global scale.

The Alliance of Ibero-American Networks of Universities for Sustainability and the Environment (ARIUSA)

Link:

<https://ariusanet/>

Description

The Alliance of Ibero-American Networks of Universities for Sustainability and the Environment (ARIUSA) is a collaborative network comprising university networks across Latin America, the Caribbean, and Spain. ARIUSA actively coordinates and collaborates on initiatives to champion the engagement of universities in sustainability, with a strong emphasis on contributing to the Sustainable Development Goals (SDGs). By uniting these regional networks, ARIUSA aims to amplify the impact of universities on sustainable practices and promote meaningful contributions to the overarching goals of sustainability in the Ibero-American context.

Australasian Campuses Towards Sustainability (ACTS)

Link:

<https://www.acts.asn.au/>

Description

ACTS, a unique independent not-for-profit organization in the Australasian region, dedicates itself to engaging, empowering, and exemplifying organizations addressing intricate social, economic, and environmental challenges, driving meaningful change towards sustainability. In collaboration with SDSN AusNZPac, ACTS cohosts a series of online forums and webinars for member institutions, with a primary focus on accelerating and scaling up action aligned with the Sustainable Development Goals (SDGs). This initiative aims to collectively enhance the sector's response to the SDGs by providing a platform for members to share and discuss approaches, challenges, and insights related to SDG implementation. The series also seeks opportunities for ongoing collaborations and ways to disseminate knowledge within the broader community, emphasizing the pivotal role of sustainable practices in achieving the SDGs.

Co-funded by
the European Union

Link:

https://www.universityworldnews.com/page.php?page=SDGs_Hub

Description

University World News, a prominent global higher education publication, is committed to promoting values integral to universities, such as academic freedom, diversity, equity, inclusion, internationalism, and a dedication to societal transformation through higher education and research. Notably, it has expanded its coverage with an SDGs hub, focusing on news and commentary regarding universities' contributions to the United Nations Sustainable Development Goals (SDGs) and sharing best practices in this regard. Serving as a vital platform for the exchange of news and analysis on key challenges and reforms in higher education worldwide, University World News actively provides opportunities for universities, associations, and conference organizers to showcase and promote their initiatives through its website, social media channels, cross-promotional partnerships, and newsletters, thereby emphasizing the role of higher education in advancing the SDGs.

SDG UPDATES in other areas

The Global Goals

Link:

<https://www.globalgoals.org/>

THE GLOBAL GOALS
For Sustainable Development

Description

The Global Goals refer to the United Nations Sustainable Development Goals (SDGs), which are a set of 17 goals designed to address various global challenges and promote sustainable development. These goals were adopted by all United Nations Member States in 2015 as part of the 2030 Agenda for Sustainable Development. The SDGs cover a wide range of issues, including poverty, hunger, health, education, gender equality, clean water, sanitation, climate action, and more. In this sense, this website is a great resource for information on all 17 SDGs: it includes news, stories, and resources from a variety of sources.

The United Nations Sustainable Development

Link:

<https://www.un.org/sustainabledevelopment/>

Description

This is an official online platform for information and resources related to the Sustainable Development Goals. It provides a comprehensive overview of the 17 goals, their targets, and the broader 2030 Agenda for Sustainable Development. The website offers a range of resources, including reports, data visualizations, and case studies, to track progress and promote awareness of global efforts to achieve the SDGs. Visitors to the website can explore each goal individually, gaining insights into the specific challenges addressed and the interconnected nature of the goals. Additionally, the website serves as a hub for news and updates related to sustainable development initiatives worldwide.

ATLAS of Sustainable Development Goals 2023 by World Bank

Link:

<https://datatopics.worldbank.org/sdgateas?lang=en>

ATLAS of Sustainable Development Goals

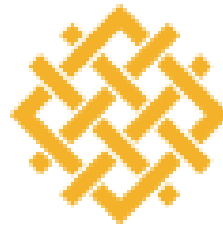

2023

Description

The Atlas of Sustainable Development Goals 2023 presents interactive storytelling and data visualizations about the 17 Sustainable Development Goals. It highlights trends for selected targets within each goal and introduces concepts about how some SDGs are measured.

The World Resources Institute (WRI)

WORLD
RESOURCES
INSTITUTE

Link:

<https://www.wri.org/>

Description

The World Resources Institute (WRI) website serves as the online hub for a global research organization dedicated to addressing environmental challenges and promoting sustainable development. Users can access an extensive range of research reports, publications, and data-driven analyses covering topics such as climate change, biodiversity, water management, and urban development. The site also provides information on ongoing projects and initiatives worldwide. Details about conferences, events, and webinars organized or participated in by WRI experts are available, offering opportunities for engagement and knowledge-sharing.

The Sustainable Development Solutions Network

Link:

<https://www.unsdsn.org/>

Description

The UN Sustainable Development Solutions Network (SDSN) operates under the UN Secretary-General's leadership, rallying universities, think tanks, and national laboratories worldwide to advance the Sustainable Development Goals (SDGs) and the Paris Agreement on Climate Change. The SDSN strives to empower societies through free online education and translates scientific evidence into actionable solutions and accountability measures. Its website promotes integrated approaches for SDGs and climate action, emphasizing education, research, policy analysis, and global cooperation and includes news, stories, and resources on a variety of topics, including sustainable development and the SDGs.

The United Nations Global Compact Network

United Nations
Global Compact

Link:

<https://unglobalcompact.org/sdgs>

Description

The United Nations Global Compact Network website serves as a central platform for the Global Compact initiative, a voluntary corporate sustainability initiative launched by the United Nations. The website provides information and resources for businesses, organizations and civil society that are committed to aligning their strategies and operations with ten universally accepted principles in the areas of human rights, labor, environment, and anti-corruption. It offers insights into best practices, case studies, and tools to help participants integrate these principles into their practices. The site also facilitates collaboration and knowledge-sharing among members of the Global Compact Network, encouraging a collective effort toward sustainable and responsible business practices on a global scale.

The Guardian - Global Development

The logo for The Guardian newspaper, featuring the words "The Guardian" in a white serif font on a dark blue background.

Link:

<https://www.theguardian.com/global-development/all>

Description

The Guardian's Global Development section is a dedicated platform within The Guardian newspaper that extensively covers international issues in alignment with the United Nations Sustainable Development Goals (SDGs). This section offers in-depth reporting, analysis, and features on topics crucial to global development, including poverty, healthcare, education, climate change, and social justice. Emphasizing the SDGs, The Guardian explores how various initiatives, policies, and grassroots efforts contribute to or hinder progress towards achieving these global goals. Through a combination of news articles, features, and expert commentary, the section aims to inform and engage readers in discussions about the challenges and successes associated with the pursuit of a more sustainable and equitable world.
