

# IF YOU WANT TO LEARN AND SHARE MORE ON SDGs, SET UP SDG DISCOVERY LEAGUE AT YOUR DEPARTMENT

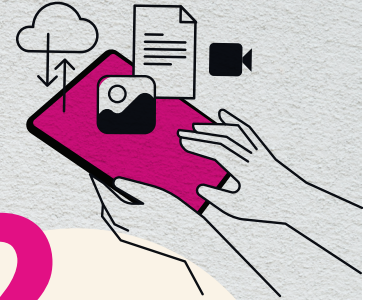

1

Create a virtual space (set up a Moodle-based channel, start SDG viber or whatsapp group, or anything similar that connects interested parties/people/actors online etc.) to share various interesting, inspiring and educational messages around SDGs with your colleagues (articles, videos, documentaries, facts infographics, etc.)

2

Keep the discovery group alive as a coordinator and share at least one interesting SDG news per week

3

Encourage your discovery group mates to do the same to keep the SDG Discovery League vivid and dynamic

LET'S DO THIS!

4

At the end of each month exchange, create a pool and ask your group mates what was the most inspirational SDG news on the group

5

Rotate coordinators of the group every couple of months

SUSTAINABLE DEVELOPMENT GOALS
