

START YOUR OPEN SCIENCE JOURNEY JOIN THE OPEN SCIENCE MOVEMENT BECOME A FULL OPEN SCIENCE RESEARCHER

# SCIENCE FAIRY MADE ME PUT THIS POSTER ON MY OFFICE DOORS

Start thinking about Open Science practices in your workflow - think about opening your publications, data, software, protocols, and methodologies in new eResearch collaborative spaces.

Share your data whenever possible!

Get inspired by this Open Science Calendar

SCAN ME

Open science refers to a range of methods, tools, platforms and practices that aim to make scientific research more accessible, transparent, reproducible and reliable.

## OPEN SCIENCE POLICY

- Read and learn more about your own institution's open science policy
- Get informed about the open science policy at the EU level
- Stay tuned with the Open Science movement on a global scale

## EUROPEAN OPEN SCIENCE CLOUD (EOSC)

- Inform yourself about the EOSC
- The ambition of the European Open Science Cloud (EOSC) is to provide European researchers, innovators, companies and citizens with a federated and open multi-disciplinary environment where they can publish, find and reuse data, tools and services for research, innovation and educational purposes
- SCAN HERE to learn more about the EOSC

## OPEN DATA & RESEARCH METHODS

- If you're yet not fully informed about the open data strategic and legal framework at your institution and country, do your homework and read all the relevant documents
- figure out what are the steps you need to follow to contribute to the open data policies
- Learn more how to responsibly share your research protocols and methodology
- Sharing and storing research data and making them FAIR (Findable, Accessible, Interoperable and Reusable) allows new discoveries, new collaborations, verification of results and the reproducibility of studies

## OPEN ACCESS JOURNALS

- consider publishing your papers in an open access journals
- Open access to publications remains a core element of Open Science

## OPEN PEER-REVIEW

- implies greater responsibility of reviewers
- based on trust and respect
- promotes good Open Science practices, such as collaboration and recognition
- Find out how open peer review works in ORE - Open Research Europe (European Commission open access publishing platform)

## OPEN SCIENCE

- Inform yourself about various initiatives at the EU level related to the open science movement
- Open Science enables a healthier and progressive research environment and helps researchers promote their work

BECOME A FULL OPEN SCIENCE RESEARCHER
